REPORT OF SCHOOL BOARD.

In submitting the report for the year we can say that our schools have been a success as a whole. Our teachers have been efficient and painstaking, nearly all of the children have come up to the standard expected of them.

We are especially proud of the number of pupils that entered into High School work in September of last year, we are not only proud of the number but also of the quality of the work done by the pupils, since entering upon the High School life, to this we may add all who are in the work from our town. They number nineteen at this writing, we expect the number to increase during the coming year. Consequently our estimate for tuitions must be larger for the coming year.

We wish to keep up the standard of the primary and grammar school work for of the children who do not go higher we will make useful men and women to keep our town in the foremost rank of dear New England towns. We wish that we might so encourage the love of rural life in them all, that not one would want to go into the city for a home.

We did at the time what seemed to be the best thing for those small schools, but the moving about of a few people have brought to all most nothing, our earnest endeavors to give all children the same school advantages.

We have made no great changes in the school work Some of our teachers have introduced a little manual training during intermission. The making of a book cupboard out of a box and mending a broken chair show samples of their work. There is so much stress laid upon vocational training at the present time, that we can but wish that the schools of Danbury might enter into that work in a limited way.

We do not think it necessary to tell you that we have attended to our duties with earnestness and a good degree of faithfulness; the school registers give us credit for seventy-six visits. We have attended one School

Board Conference in Concord, and one Teachers' Institute in our own town. We wish that we might gain from you the plaudit which we received from the State Superintendent's report, "A faithful and industrious school board."

We submit this estimate for the ensuing year:

High School tuitions,	$800 00
Books and supplies,	60 00
Flags, flagstaffs and appliances,	5 00

We thank the citizens of Danbury for their interest and helpfulness in our work this year.

NELLIE F. EDSON,
EMMA M. MARTIN,
ANNE G. ROBY,
School Board of Danbury.
